PROJECTS

Home Virtualization Lab (Proxmox)

- Designed and managed a home lab using Proxmox VE to host multiple virtual machines, including Ubuntu Linux and Windows Server.
- Configured Active Directory Domain Services (AD DS), DNS, DHCP, and user account policies in a Windows Server environment to support system administration and network services.
- Applied virtualization, server management, network configuration, Linux, Windows Server, and PC troubleshooting skills to maintain the lab environment.

Experience

Edward Rose & Sons | *IT Intern*

June 2026 - August 2026

- Provided first-level technical support for hardware, software, account, and peripheral issues, using PC troubleshooting and Microsoft Office knowledge to resolve user tickets promptly and restore functionality in an enterprise IT environment
- Worked with Active Directory, Group Policy, Patch My PC, and asset management tools to support users, apply endpoint updates, and maintain consistent policy enforcement while reducing login problems
- Imaged, configured, deployed, and received Windows devices using SCCM, troubleshooting operating system and peripheral issues while maintaining accurate asset records to enable rapid onboarding of new staff and minimize setup errors

Subway | *Manager*

May 2019 - Present

- Managed and trained new employees.
- Maintained accuracy in cash handling and inventory management, ensuring smooth daily operations.

V2 Soft | *IT Helpdesk Support*

January 2022

- Assisted users with account access issues, including password resets, following a data breach affecting Flagstar Bank
